Financial Outlook

For the first quarter of fiscal 2024, the Company currently expects:

- Total revenue of \$132 \$134 million
- Non-GAAP operating loss of \$42 \$39 million
- Non-GAAP EPS loss of \$0.15 \$0.13
- Weighted Average Fully Diluted Shares of 191.6 million

For the full fiscal year 2024, the Company currently expects:

- Total revenue of \$591 \$595 million
- Non-GAAP operating loss of \$136 \$133 million
- Non-GAAP EPS loss of \$0.40 \$0.38
- Weighted Average Fully Diluted Shares of 194.0 million

HashiCorp has not reconciled its expectations as to first quarter and fiscal year 2024 non-GAAP operating loss and non-GAAP earnings per share to the most directly comparable GAAP measures. Due to the limited public trading history and significant volatility in the price of HashiCorp's common stock, certain items, which could be material, cannot be calculated without unreasonable efforts. In particular, the measures and effects of our stock-based compensation expense specific to our equity compensation awards and employer payroll tax-related items on employee stock transactions are directly impacted by the timing of employee stock transactions and unpredictable fluctuations in our stock price, which we expect to have a significant impact on our future GAAP financial results.

Forward-Looking Statements

This press release and the accompanying conference call contain forward-looking statements within the meaning of the Private Securities Litigation Act of 1995, as amended, including, among others, statements about HashiCorp's business strategy and efficiencies and HashiCorp's financial outlook for the first quarter and full year of fiscal 2024. In some cases you can identify forward-looking statements because they contain words such as "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "might," "likely," "plan," "potential," "predict," "project," "seek," "should," "target," "will," "would," or similar expressions and the negatives of those terms.

Such statements are subject to numerous important factors, risks and uncertainties that may cause actual events or results to differ materially from current expectations and beliefs, including but not limited to risks and uncertainties related to market conditions, HashiCorp and its business as set forth in our filings with the Securities and Exchange Commission ("SEC") pursuant to our Quarterly Report on Form 10-Q dated December 7, 2022 and our future reports that we may file from time to time with the SEC. These documents contain and identify important factors that could cause the actual results for HashiCorp to differ materially from those contained in HashiCorp's forward-looking statements. Any forward-looking statements contained in this press release speak only as of the date hereof, and HashiCorp specifically disclaims any obligation to update any forward-looking statement, except as required by law.

Use of Non-GAAP Financial Measures

In addition to our results determined in accordance with GAAP, we have disclosed non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating loss, non-GAAP net loss, non-GAAP net loss per share, non-GAAP free cash flow and total and current non-GAAP RPOs, which are all non-GAAP financial measures. We have provided tabular reconciliations of each non-GAAP financial measure to its most directly comparable GAAP financial measure at the end of this release.

We calculate non-GAAP gross profit as GAAP gross profit before amortization of amortization of stock-based compensation of capitalized internal-use software, and stock-based compensation expense included in cost of revenue.

We calculate non-GAAP gross margin as GAAP gross margin before the impact of stock-based compensation of capitalized internal-use software, and stock-based compensation expense included in cost of revenue as a percentage of revenue.

We calculate non-GAAP operating loss as GAAP operating loss before amortization of stock-based compensation of capitalized internal-use software, and stock-based compensation expense. We calculate non-GAAP net loss as GAAP net loss before amortization of stock-based compensation of capitalized internal-use software, and stock-based compensation expense.

We calculate non-GAAP net loss per share as non-GAAP net loss divided by weighted average shares outstanding.

We calculated non-GAAP free cash flow as net cash provided by (used in) operating activities less purchases of property and equipment and capitalized internal-use software costs. Non-GAAP free cash flow as a % of revenue is calculated as non-GAAP free cash flow divided by total revenue.

We calculate non-GAAP RPOs as RPOs plus customer deposits, which are refundable pre-paid amounts, based on the timing of when these customer deposits are expected to be recognized as revenue in future periods. The current portion of non-GAAP RPO represents the amount to be recognized as revenue over the next 12 months.

Our management team uses these non-GAAP financial measures internally in analyzing our financial results and believe they are useful to investors, as a supplement to GAAP measures, in evaluating our ongoing operational performance. We believe that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing our financial results with other companies in our industry, many of which present similar non-GAAP financial measures to investors.

Non-GAAP financial measures have limitations as an analytical tool and should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. In particular, other companies may report non-GAAP gross profit, non-GAAP gross margin, non-GAAP loss from operations, non-GAAP net loss, non-GAAP net loss per share, non-GAAP free cash flow, non-GAAP RPOs or similarly titled measures but calculate them differently, which reduces their usefulness as comparative measures. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measures, as presented below. This earnings press release and any future releases containing such non-GAAP reconciliations can also be found on the Investor Relations page of our website at https://ir.hashicorp.com.
